Agellis receives an order for 1 MSEK from South Korea

The AGELLIS Group, the company that develops measurement instruments and solutions for the global metals industry, has received an order for a system with a value of 1 MSEK for delivery to a steel plant in South Korea.

One of the major steel producers in the world has placed an order with Agellis for an EMLI T instrument which will be used to measure the steel level in a continuous casting tundish. The Korean steel plant will be able to increase their productivity through optimisation of the casting process when using the Agellis system.

”Agellis has a new distributor in South Korea and we expect a lot of business from there, since South Korea is the 6th largest steel producing country in the world”, says Mårten Öbrink, CEO at AGELLIS Group.
